POLYCARBONATE MEDIA & OVERLAMINATES MATCHED FOR COMPATIBILITY

WHAT IS IT?

In producing tradeshow graphics, Claritex® Polycarbonate film for digital printing and Eclypse™ Polycarbonate Overlaminates are the perfect matched component solution for demanding applications:

- **Retractable Banner Stands**
- **Posters**
- **Tradeshow Booth Panels, Headers, End Caps**

TRADESHOW SOLUTION ADVANTAGES

Matched Compatibility. Claritex® polycarbonate media and Eclypse™ polycarbonate overlaminates are matched for compatibility. Because both media and laminate are polycarbonate, both expand and contract at the same rate so graphics won't tunnel, buckle or curl.

Brightest White for Truer Colors. Claritex® Super Bright White Polycarbonate features the most brilliant white of any tradeshow media. Colors are truer, more vibrant and make a lasting positive impression. Unlike polyester and polyofin composite media, Claritex® has no gray cast to detract from your images.

Better Durability. Tougher polycarbonate films withstand abrasion better. Claritex® digital media is not susceptible to scratching. Roll and unroll graphics without fear of tunneling. Better durability means lower lifetime cost of tradeshow graphics.

More Mix and Match Solutions. With a variety of polycarbonate digital print media and polycarbonate overlaminates to better meet your customers' needs, you can provide thicker constructions eliminations wavy graphics for a more professional appearance.

TRADESHOW BOOTH SOLUTIONS

Booth Panels: Use 10 or 15 mil Super Bight White Claritex® media with 10 or 15 mil Eclypse™ Polycarbonate Overlaminate.

Headers: Use 10 or 15 mil Super Bight White Claritex® media with 5 or 10 mil Eclypse™ Polycarbonate Overlaminate.

End Caps: Use 10 mil Super Bight White Claritex® media with 3 mil Eclypse™ Polycarbonate Overlaminate.

RETRACTABLE BANNER STAND SOLUTION

Use 10 mil Super Bight White Claritex® media.
