

INNOVATIVE SOLUTIONS FOR GRAPHIC ARTS PROFESSIONALS

MAKE YOUR LIFE EASIER. YOUR CUSTOMERS HAPPIER. YOUR BUSINESS MORE PROFITABLE.

THE RTAPE FAMILY OF APPLICATION TAPES

Conform® Application Tapes with RLA® Release Liner Adhesion stick to slick release liners, lay flat and resist tunneling and edge curl, even when graphics are rolled. Available in both paper and film. Factory cut rolls eliminate nicked edges that cause inopportune tape tears. **ApliTape™** provides all of the performance benefits of Conform® tapes, but without RLA®. **Clear Choice®** clear application tapes allow easy alignment of multiple color overlays. These “no-stretch” tapes eliminate registration mishaps.

ECLYPSE™ OVERLAMINATES

Eclipse™ Overlaminates protect your graphics investment while enhancing the appearance of your print. Eclipse 3.2 mil PVC overlaminates are available in gloss, satin, lustre and matte finishes. Tough Eclipse Polycarbonate films provide the utmost in protection and tunnel free performance. Eclipse Patterned Overlaminates add WOW to graphics. Available in Glitter, Frost, Carbon Fibre, Linen and Diamond Plate patterns.

VINYLEFX® PRINTABLE METALIZED VINYL

VinylEfx® Metalized Films cut like vinyl, print like vinyl and last like vinyl, because VinylEfx is vinyl. Eyecatching patterns attract attention and add value to your signs.

DIGIMASK® PRINT PROTECTION PREMASK

Digimask® and **Digimask®Clear** print protection tapes protect valuable prints during handling and application. Used to protect rigid substrates, DigiMask®Clear allows inspection before installation and aids in precise registration of graphics panels when doing vehicle wraps.

CLARITEX® PRINTABLE POLYCARBONATE FILMS

Claritex® Polycarbonate Films are printable by eco solvent, solvent, latex and UV-curable inkjet printers. Perfect for retractable banner stands. Use with Eclipse™ polycarbonate overlaminates for tradeshow graphics.

PROGRADE™ PAINT MASK FOR SIGN & BODY SHOPS

ProGrade™, a yellow polymeric vinyl paint mask, is easier to cut and weed than other paint masks. Works with urethane and enamel paints. Withstands bake cycles up to 200 F (93 C)!

EZ ERASE™ PRINTABLE DRY ERASE VINYL

EZ Erase™, the printable dry erase film, applies easily with no mishaps and no graphics damage. Removes easily and cleanly without using chemical removers. Great for restaurant menu boards and conference room walls.

CHALKTALK™ CHALKBOARD FILM

ChalkTalk™, a non-vinyl grey chalkboard film provides an exceptional finish for writing with chalk. Wipes clean with an eraser or damp towel. Removes cleanly without using chemical removers. Great for restaurant menu boards.

PERFORMANCE PRODUCTS FOR SCREEN PRINTERS

Blue Block Out™, a self wound polyethylene block out tape, resists attacks by inks and solvents and withstands multiple pressure washes. **SplitLiner™**, a white polyethylene block out tape with a back slit release liner, is perfect for retensionable frames. **PalletProtek™**, pallet protection tape, reduces time consuming and costly clean up from textile pallets!
